Assessor Comments	On offer is a nice line of soft Simental and Charolais cross bred heifers. These heifers are out of a cow herd that has been using Simental as its base for many years. Sires are from Billa Park, Moongool, Casa Toro and Summa Simental and Betta field Charolais. These heifers have the makings to be future breeders they show kind temperament and are out of cows that are preg. tested yearly to ensure fertility in the herd there are 16 of these heifers that are not vendor bred and were brought as calves on cows some of these 16 heifers show more brahman content and look to be by droughtmaster bulls and out of brahman cross cows they would be best described as soft type brahman cross and can be seen in the photos. it was observed that 2 heifers had fly bite and 3 heifers are tipped horns.
