Temperament	Yards	Crush	Paddock
	Quiet: 60 head Slightly Stirry: 18 head	Quiet: 70 head Slightly Stirry: 8 head	Temperament not assessed in Paddock

Steers considering they have only just been weaned were actually good to handle in most areas of the yards. A few did react negatively in the crush but settled quickly once back with the main mob. In the bigger yards there were some ring leaders that still have a bit of trot in them which is quite normal and makes the balance follow the leader a bit. They also need to be steadied through gateways. These should settle down further by delivery.

Handled With: Bikes , Dogs , Horses

Notable Traits

	Traits
1 Head	Blue eye scarring
2 Head	Light warts

Assessor Comments: Buyers a light 2 deck line of PCAS ELIGIBLE Composite weaner steers that are mainly flat back types and should be ideal to suit to background for domestic feeder entry weight specifications. These have only been off the cows or a few days and are already starting to settle down quite well temperament wise. There are 195 in the run to be sold in two lots. All steers were weighed and will be delivered as a "run of the gate" with a focus on multiple buyers receiving an even run. The whole run I feel would probably fit on a 4.5 deck unit. The vendor has indicated these will be reserved at very realistic prices. All up at the property there are 527 weaners being offered in the sale. These have also had an on-farm pre-treatment in preparation for entry to all tick free areas. All clearing costs are at the purchasers expense.
