Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	Buyers a line of 90 PCAS eligible soft easy doing Droughtmaster heifers that are best described as medium to large frame. Heifers present in store to forward store condition with plenty of bone & length. Cattle were mustered the day prior to assessment had a big curfew before being weighed and would expect buyer to see plenty of compensatory gain. This line would suit both feeding or breeding with vendor being very selective in genetics. At assessment mouthed the 25 heavier end which included all nb#2s with only 4 x head being 2 tooth the balance all milk. Age brands are visible on the heifers with all number nb#2s being late second round as vendor brands Calander year. Overall a very tidy line that will perform given the opportunity on crop or grain.
