Any Access To Bulls or Stags?

Yes, last access to bulls/stags: 05/03/2024

Joining Access Details

Heifers had access to bulls while on their mothers, due to their age and the weight of the heifers conception in this period very unlikely.

Temperament	Yards	Crush	Paddock
	Quiet: 21 head Slightly Stirry: 7 head Stirry: 2 head	Quiet: 12 head Slightly Stirry: 10 head Stirry: 8 head	Temperament not assessed in Paddock
	Heifers handled well throughout the drafting and weighing at assessment, some heifers show typical signs of fresh weaner cattle becoming flighty when put under pressure and confined in the crush during weighing. Large majority of the heifers were quiet during the photos and videos with only a handful staying flighty during the photographing and video process at assessment. Overall heifers handled well for fresh weaner cattle and will be no dramas for capable cattlemen.		
Handled With	Bikes , Dogs		
Assessor Comments	A nice lot of Droughtmaster and Droughtmaster cross heifers for your consideration. These heifers are out of good medium to large framed Droughtmaster & Droughtmaster cross cows and sired by Clonlara Droughtmaster and Glen Fosslyn Droughtmaster bulls. These heifers present in store condition with minimal bloom left on them after the weaning process. These heifers would be an ideal article to grow out for feeder markets off crop or equally a great article of heifers to buy and put away before the fast approaching Spring. Buyers give these heifers a backline and introduce them to good pastures and they will perform for you. Please note the same vendor is offering the Charolais/Droughtmaster cross sisters in the same Weaner and Yearling Sale.		
Assessor	Jack Hannah (Level 2 Accredited)		
Delivery Period	12/08/2024 to 15/08/2024 (4 days)
