Assessor Comments	A good quality line of approx 53 straight Angus with approx 10 Angus/Senepol X weaner steers, 230 to 345 kgs to avg 271.9 kgs (14 HOURS OFF FEED). An obvious tail including anything that was lacking muscle or condition has been removed. Two steers with small amount of white under belly. (One steer with a single light smokey eye, it treated with Opticlox) at assessment) These steers are easy to handle both in the yards and paddock. They are fresh in their winter coats and going ahead well in condition. This is a fantastic opportunity to buy good quality Chesterfield weaner steers! (Agent happy to scan tags for buyer at no cost if required). See 3rd shorter video of the 10 only 1/4 Angus/Senepol cross steers.
