Assessor Comments	A very neat, quiet line of Composite Weaner Steers averaging 208kgs at assessment. Vendor is letting pastures regenerate and letting cows recover after calving. These steers are out of a very good Tablelands Composite Cow herd and are showing a great deal of depth, length and heavy bone. Will grow into a very nice heavy feeder steer or make a great heavy export steer. Buyers please note, there was one calf which was marked at assessment. Also buyers please note: The vendor is willing to wean the calves over the weekend if the buyer nominates to do so after sale is completed.
