Assessor Comments	One mark NSM Angus X Angus heifers. These heifers were purchased direct the breeder M. Neeson at Borambola, as the tops of the winter 2023 drop (30% tail removed). The herd is based on Hazeldean and Rockwood Angus genetics. 100% weighed 270kg+ after a 6 hour curfew to present a line of heifers ready for an immediate joining to the sire of your choosing. These heifers have been sourced for the last 3 years with clients impressed by the repeated performance. They are currently gaining an av of +1kg/hd/day on a bulky oat crop and are just hitting their straps and not in any way overdone. They were comfortable with human interaction settling properly for photos and a video following assessing. Health treatments are up to date. 100% grass fed and antibiotic free, presenting suitable to feeding or future breeding. Winter coats are starting to clean up. Should you require any further information please call. Please note vendor is offering a total of 4 lots of NSM Angus heifers in today's sale.
