The herd is based on Milwillah, Te Mania and Fernhill Angus genetics. 100% have been weighed 282kg plus after a 6 hour curfew to present a line of heifers ready for an immediate joining to the sire of your choosing. They are currently gaining an average of +1kg/hd/day on a bulky oat crop and are just hitting their straps and not in any way overdone. They were comfortable with human interaction having been properly weaned and they have settled properly for photos and a video following assessing. Health treatments are up to date and they are 100% grass fed and antibiotic free, presenting suitable to feeding or future breeding. Winter coats are just starting to clean up.
