Assessor Comments	One mark NSM Angus X Angus heifers. These heifers were purchased ex Wagga on account the breeder "Curralee Pastoral Co" Wagga. The herd is based on Rennylea and Bongongo Angus genetics. 100% have been weighed 222-296kg after a 6 hour curfew to average 251kg. After a tough autumn they have averaged 1kg/hd/day since purchasing and are just hitting their straps. They were comfortable with human interaction having been properly weaned and they settled properly for photos and a video following assessing. Very well mannered weaners and are currently running in a larger mob being rotationally grazed. Health treatments are up to date and they are 100% grass fed and antibiotic free, presenting suitable to feeding or future breeding. Winter coats are just starting to clean up. Should you require any further information please call. Please note vendor is offering a total of 4 lots of NSM Angus heifers in today's sale.
