Temperament

Yards	Crush	Paddock
Quiet: 105 head Slightly Stirry: 2 head	Quiet: 105 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Very easy weaners to handle and stood on the scales with a minimum of fuss & exited the crush camly. Properly yard weaned and educated. Walked out of holding yard back to paddock calmly & quietly. Have no hesitation in recommending their temperament. See video for quietness of cattle.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	Dispersal of Heifer Weaners from the Rogers Family property "Taradale" in the Tumbarumba high country. Property has been sold and a small tail removed from this draft of heifers with none retained. Out of a high grade Angus Herd that is predominately Hazeldean Blood with some Dunoon & Bowmont influence as well. These heifers show all the positive attributes of the Angus breed. Feminine heifers with a great temperament that will be an asset to any herd as future matrons. Vendor shops at the top end of bull catalogues and it shows in the quality of the breeding of these calves. Running in the fog and frosts around Tumbarumba they present with plenty of frame and not much condition and will make quick weight gains heading into Spring and some warmer weather. Around 20 head present with rubbing/ringworm around the head & necks, see photos for the worst but not detrimental to the quality in any way. All eyes are free of pinkeye scarring or blemishes. Grass fed & Antibiotic free.
