These heifers only get handle by one individual so they do react when strangers handle them - in saying that they handled well in the yards while being filmed and photographed - they are not push around quiet, but not stiry either, they just move well through the yards. 5 heifers moved a little and 1 heifer a lot when being weighed. 1 heifer moved a little faster than the others in the yards.

Handled With: Bikes , Dogs , Horses , Vehicles

Assessor Comments: A good opportunity to purchase a small line of EU Angus heifers to add into your breeding herd, or grow out to heavy feeders / kill cattle. These heifers have grown well given the very dry Autumn / winter but will respond quickly given the right opportunity. NOTE - 24hd are VENDOR BRED - 16hd are NOT VENDOR BRED - purchased in 11months ago as calves on cows. There are 2 Shorthorn cross heifers in this line which can be removed if the purchaser wishes.
