Steers were well behaved to handle throughout assessment. Given the amount of green feed going through them at the moment, a few needed to have manure balls removed from their tails, this did upset a few steers as they entered the crush. Once settled back in the yard, they were sensible to let out into the laneway and into the holding paddock for photos.

	Traits
2 Head	Old Vacc lump
1 Head	Small Wart(s)
2 Head	Small white splash on flank

Assessor Comments: Outstanding draft of baby bullocks. By select high performing A.I sires & Dunoon mop up Bulls, bred in the purple, and never seen a tough day. As good as any feeder steer we've seen produced this year. 452kg, and genuinely only 11-13 months of age. Square as bricks from every angle, with exceptional length, depth & width & a real 'easy doing' softness about them. By a herd of large framed Ardrossan & Dunoon Angus blood cows that are heavily classed and assessed annually. No expense spared when selecting sires with desired traits. 100% Grass Fed, Antibiotic Free and doing 1.29kg/day on a fresh oat crop. Cattle that tick every box and will just keep going forward. This is a first time opportunity to secure these outstanding cattle, usually sold direct to feedlot. Steers that come with the agents & assessors highest recommendation.
