Heifers were quite anxious leading into the crush, & all receiving a needle in the race beforehand didn't help. Heifers that haven't had a lot of visits through the yards, and their most recent was to be preg tested, again this didn't help with their anxiety. None showed any aggressive behaviour, just very nervous

4 Head	White Flank

Assessor Comments: Very stylish heifers offered on A/c of Towong Hill Station. A nice even line of Upper Murray bred females to do any job. Length, Shape and temperament, backed by very good genetics. Renowned performing cattle that often attract the attention of repeat buyers. Originally selected as part of the keeper heifer draft, only offered for sale due to the vendor only retaining a single cycle of joined females. These heifers were scanned as Non detectable after having the bull in for just 5 weeks, & received a PG needle at assessment. Giving the sucessful purchaser the opportunity to go any way with them now. They meet Feedlot parameters and could be started on a feed ration or backgrounded in to the Spring.
