Quiet good to handle and draft, flowed well up the race and into weight box, odd one jumped around a little but generally stood well and were calm once back in the mob.

Assessor Comments 52 EU steers representing the seconds, with a tail removed, of the Hereford steers from the Warra Yadin Hereford herd. These steers show the classic traits of the Hereford breed and have the capacity to suit feeder steers through to bullocks. These steers have done well since weaning in tough seasonal conditions and have been trail fed a beef weaner pellet with ad lib pasture hay and straw from mid June and have continued to grow. There has been an extensive range of Poll Hereford genetics used to produce these steers utilising AI from top Hereford studs through to Warra Yadin blood bulls. Noted high performance cattle that have always performed well for previous buyers on grass and grain. Two steers observed with a cloudy eye, but not seen as detrimental. Please note vendor has two other lots of steers in today's sale.
