	The cows mob up well when mustering, walking in steady & easy to yard up. Moving freely through the pound & race for preg testing.They will become unsettled if cornered or isolated however when handled confidently they respond well. Several were jittery in the crush yet settle when in the mob & given space. They look for an opening & require steadying through gates and blocking up with confident stock handling they are a very easy mob to move & draft through the yards yet are protective mothers.			
Handled With	Bikes , Dogs , On foot , Vehicles			
Assessor Comments	Very good quality larger frame very well grown young Brahman cows - 2nd calvers PTIC 2-6 months to Clunie Range Angus bulls. Originally purchased as PTIC heifers from a high grade very good quality herd of Brahman cows and calved out at Bimerah. Control mated & PTIC in a tight calving window. 6 PTIC - 6 months, 49 PTIC - 5 months, 25 PTIC - 4 months , 2 - 3 months & 1 at 2 months in calf. A fertile mob of young cows in a deliberate tight calving window. These young cows certainly filled the vert crush - long bodied & very good frame. 1 with a fly rub sore on her underline, 3 with small horn regrowth otherwise exceptionally tidy heads.
