	Slightly Stirry: 5 head	Slightly Stirry: 4 head	Slightly Stirry: 2 head
	Stirry: 1 head		

These Cows were an absolute pleasure to handle & assess. I personally mustered these cattle myself on a bike and they were very easily yarded. These cattle flow through the yards well and have plenty of block. A small percentage of Cows when pressured stirred up slightly in yards however when left alone they were very content. When released from yards they all instantly put their heads down and started to graze. Please view videos for full satisfaction.

Bikes

Assessor Comments

Buyers, on offer is a small but fantastic line of genuine young Breeders. These 19 PTIC Cows are all only 4 Years old and one brand. They are great quality Droughtmaster Cows that were doing a great job on their calves that were weaned in June. These Cows would be ideal for anyone looking for young replacement breeders or anyone looking to boost their Breeder numbers. These Cows present in fantastic condition given the dry winter with calves on them. These Cows were Pregnancy tested first at the start of July and again at assessment for complete confidence in results. All bar 1 Cow were over 6 Mnths in calf with one being 4 Mnths. This is a great opportunity for someone looking for genuine front paddock Breeders. Please note the vendor also has 14x14 Cows & Calves in the same sale.
