	A nice quiet line of heifers that have had plenty of handling. A few heifers were slightly agitated during assessment but were calm in the mob.		
Handled With	Bikes , Horses		
Assessor Comments	A very nice line of well bred, well handled EU PTIC heifers, all number threes. A beautiful composition of Charolais/Simmental/Droughtmaster infused heifers, these heifers pack plenty of crossbred vigour showing the good bone, depth and softness from the Charolais and Simmental lines and the length, growth and resistance from top quality droughtmaster genetics and present with plenty of growth and show nice feminine features. These heifers have had plenty of handling at weaning and have good exposure to bikes, horses and yard educated and are easy to work with. They have been preg-tested for their first calf, 6-8 months to Vale View, Huntley, Garth Owen, Bryvonlea and Summer droughtmaster bulls. These heifers are out of a very fertile herd of cows, the vendor is only selling these as they have an excess number of females in calf. A very neat line of EU future breeders not to be missed.
