	Cows worked well through yards and were good to handle. Cows required blocking up on occasions throughout gateways. A small percentage of cows became unsettled under pressure, but settled once back with others. This could have some to do with cows being pretested day prior to assessment. Cows will want settling into new environment.

Assessor Comments	Buyers, on offer is 40 PTIC Angus cows all PTIC to Arubial Wagyu bulls. *Please see in Documents for Sire pedigrees* Cows show all attributes to make ideal replacement breeders with cows showing plenty of length and softness whilst still showing good femininity. Cows were all preg tested by Border Rivers Vets and were tested on 5th of August 2024, all cows being 6 - 8 months in calf at time of sale. Cows are proven breeders with the majority having had 3-4 calves. This group has plenty of breeding years left in them and would be an asset to anyone's breeding operation. Cows are only being sold due to vendors change in direction. *Buyers vendor also has another 2 x lots in same sale*.
