Assessor Comments	A great draft of proven breeders that are surplus to the vendors requirements, These cows have successfully conceived and reared a calf year in year out, The Kent Park herd is well known for producing well doing quiet weaners, The progeny is keenly sought after by repeat buyers who appreciate their temperament and performance in either a grass or grain finishing program, Any cow with an obvious fault (Eye, Feet, Udder) were removed prior to assessment resulting in a very sound and fertile draft of proven breeders, The Kent Park management have always purchased sires at the top end of the Respective Karoonda & Newcomen catalogues with a selection criteria of growth & carcass performance
