Handled With	These cattle are generally docile cows. the vendor prides themselves on low stress handling with there cattle. Cows walked through yards and race at a slow relaxed pace, as seen in video cows were actually weighed in the race and once standing on scale they stood patiently and exited as a slow walk. These cows will suit any experience level of livestock handling. Bikes , On foot , Vehicles	
Notable Traits	Traits	2 Head rub marks
Assessor Comments	Nice line of middle aged Hereford cows PTIC to an Injermira Hereford Bull with a relatively low birth weight as seen in attached figures . Docile natured, structurally sound females in the prime of their productive lives. These proven mothers will not disappoint and will be a great asset to someone starting or adding to a herd. along with the docile temperament these cows have had all the treatment and are beginning to spring up in time for spring. Note a couple of cows showing rub marks around neck and rump as seen in photos.
