Handled With	Well handled cattle that flowed very well through the yards and race. Cattle that didnt like being in the crush especially the head bail when being mouthed but once back with in the mob they were fine. Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	3 decks of Angus cross steers sired by Texas Angus bulls. All the work has been done, Vendor Bred and Lifetime traceable. Everythign was mouthed to be 80% Milk Teeth, 10% are cutting their first tooth, and 10% are genuine 2-teeth cattle. They are backlined with MUSTER. Please note that there is a 10-day withholding period (WHP) that ends on the 24th of August. Despite the deteriorating season, these steers are doing well and would greatly benefit from the right feed, oats crop, or grain. Out of the 86 steers initially assessed/photographed, 2 steers under 400kg, 2 steers over 500kg, 2 non-vendor bred steers, and 2 grey steers have been excluded to present the best line for purchasers. However, these excluded steers would be available for purchase if the buyer desires.
