Assessor Comments	Buyers, this is a nice line of well bred replacement Ultra Black weaned heifers averaging 285 kg. These heifers have great thickness with length of body and softness. Heifers show nice skin and bone with plenty of volume and capacity to fill out. They are very well bred being by Carbene Grazing Ultra black cows by well above ave Palgrove Ultra Black stud sires. Heifers worked very well through yards. This is a great opportunity to purchase young well bred heifers that would make nice breeders.
