Comment on Fat Score 1 Cattle: Majority of these cows are in good store condition. The backward store condition cows are light in condition but are strong. These cows would be able to travel long distances if fit to load guidelines are followed.

These cows were good to handle in the yards & through the crush at assessment. Cows are free moving through the yards. Cow that were slightly stirry & stirry in the yards and the crush were from being isolated or made to stand on the platform too long whilst getting management tag numbers. Cows were good to walk through in the big yards whilst taking photos. These cows need to be respected in close confines. Cattle that have been handled by good stockman/women.

| Assessor Comments | Buyers an opportunity to purchase a mob of predominantly good medium to large framed cows & calves to class up & continue the younger portion as future breeds & fatten the older cows or to fatten & split, with plenty of weight gain potential out of the lighter country north of Jericho. These cows are doing a good job on their calves considering the seasonal conditions being experienced. Only being sold due to them being out of the vendor main calving period & the dry seasonal conditions. The calves are by Angus/Brangus & Red Brahman bulls. These calves are very quiet and easy to handle. Buyers please note the Notable Traits listed. |
