Assessor Comments	A very nice mob of young Poll Hereford breeders with their second calf at foot. Running in one of the highest districts of the Central Tablelands they have been doing an admirable job on their April / May drop calves and will certainly power ahead shown a warmer climate. Bred with Hereford sires from Tycola, Kanimbla and Landillo and now with Karoo Angus calves at foot they present as a very tidy unit. Double Pesti vaccinated along with all other health treatments not many boxes left to tick here. Young breeders with all their lives ahead of them and ready to be rejoined to the bulls of your choice. Calves of a size and age to take full advantage of the spring feed as it comes on over the coming months, please note there is one extra calf assumed to be a twin (39 * 40) Well worthy of close consideration. Note there are two Angus X cows in the mob, if they are a problem and you only want red cows they can be mothered out, happy to work in.
