	The heifers worked well through the yards and were quiet to walk through. There were some heifers that pushed up the race but settled well once out of the crush. In the bigger yards the heifers were eager to exit when a gate was opened but could be blocked easily.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 4 Head Fresh weeping eye 2 Head Old blight scarring 1 Head Warts on eye		
Assessor Comments	Offering a nice line of 143 crossbred backgrounder heifers. The heifers were 348.6kg live at assessment after a 6-hour curfew. The heifers are majority purchased in locally ex Marmboo Longreach back in March and have done very well since arriving, after experiencing a good season. The majority of these heifers are good types showing thickness and good bone with only a few plainer types in the mob. These heifers would be ideal to take through as feeders on crop as they already have a weight on their side and would be an ideal quick turnover.
