Assessor Comments

On offer is an excellent line of Angus cross Weaned steers, these steers are showing excellent growth and bone, these

steers are only 10-12 months of age and are showing excellent weight for age on dry natural grass. These steers are out of a Santa and Santa cross cows by Gunda Park stud Angus bulls and are showing great muscle definition and performance. This line would suite a feedlot buyer or to background onto heavy trade and export markets. Compensatory gains expected
