	Heifers worked well through yards and were very safe to handle, a credit to the vendors. However, given heifers age, a settling in period will be beneficial.

Assessor Comments	Buyers, an opportunity presents itself to purchase a line of 51 weaned Angus & Angus composite heifers. These heifers present in store condition and will offer plenty of compensatory weight gain once settling into their new environment due to having been fully weaned & handled. Heifers show all attributes to make great future breeders or background to heavier feeder weights, and will excel on grass, crop, or grain. The group are very good to handle and would be easy to have around. Vendor also selling steers in same sale. Please see photos and video for full satisfaction.
