	These heifers were very good to handle in all parts of the yards, they worked well through race and crush. 1 heifer noted to be slightly stirry acted up when caught in the crush, once let out they settled back to the mob quickly. Vendor has spent a bit of time educating cattle in the yards and out in the paddock.

Notable Traits	Traits 1 Head Blue eye		
Assessor Comments	Buyers here is an opportunity to secure a mob of quality weaned heifers. These heifers are powering ahead after weaning and are performing on the winter feed and silage they have had in front of them. I would expect these heifers to keep going forward for buyers. These would ideally suit backgrounders looking for cattle to put away on grass or crops to grow out to trade or feeder weights or to retain as future breeders. Please note vendor has another 21 heifers in the same sale. Please note these heifers are in a TICK FREE area.
