	Weaners worked through draft and race well at assessment with the odd one stirring up under pressure but settled once it was back with the mob. Moving weaners between yards were very quiet and a credit to the education the vendor has already put into them. Weaners will continue to be educated outside and inside the yards until delivery.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles		
Assessor Comments	A 4 deck line of 140 VGQ PCAS eligible Santa & Santa X weaner heifers that present in store to forward store condition and are best described as being medium to large frame relative to age. Heifers show plenty of bone, length & depth and would make good future breeders or suit the trader to grow out to feeder heifers or heavier kill weights. This is an opportunity to buy a large run of one brand heifers that will have been well educated in and outside the yards. At assessment 1 x heifer noticed to be double muscled. Buyers please note some of these cattle have been in hand for up to two weeks at assessment so expect good compensatory gains. Vendor also has other lines in the same sale.
