Assessor Comments

An exceptional line of backgrounder steers that are very close to feeder weights, these cattle show plenty of frame and

have started to consistently gain weight with a rising plane of feed. Borderdowns have consistently invested in large quantities of the best Millah Murrah genetics Via AI for many years now with a strong focus on growth and carcass traits. The steers will perform in any environment. A small percentage of this line have some pink eye scaring from being fed hay through the autumn.
