Assessor Comments	A good quality line of Angus and Angus Cross Cows with Angus calves at foot. Cows are 3 to 8 Years with a good selection being on the younger end. The majority of cows have come through winter very well presenting in good condition while doing a great job on their calves that present in fresh to good condition. The cow herd is a base of EagleHawk and swanbrook Angus Genetics. Due to a dissolving of the partnership this line is the last lot to be sold, these proven breeders proved their worth only last week with their last years progeny of yearlings making market highs with the steers fetching $423 cents for 345 kgs and the heifers selling for a high of $3.80 cents to be kept as future breeders. Calves were sired by EagleHawk and swanbrook Angus bulls also, calves are yet to be marked. Bulls Have been running back with cows since calving. A perfect B-Double load of Good Honest breeders not to be missed.
