Assessor Comments An excellent opportunity to purchase 70 x Aug/ Sep 2022 Drop PTIC Rennylea Blood Angus Heifers. Purchased from the highly regarded MHPF Herd at 'Enfield' at Walcha in April. Purchased as classed in heifers that were foetal aged at scanning to calve from mid October for 6 weeks to LBW Rennylea Sires. Only offered earlier in 2024 as the failing season in the New England dictated their sale. The heifers are in forward of store condition and are in great shape to handle calving in the coming months. Generally showing great length of body and quality attributes the heifers will grow into a productive line of cows for the future. The MHPF program focuses on high performance genetics and buyers can take full advantage. The heifers were pregnancy tested again on the 8/7/24. To be offered in 2 groups of 35 and delivered equally to reflect weight and quality.
