2 Head	White on udder

Assessor Comments

An excellent run of EU accredited Autumn calving young Angus cows out of the renowned 'Bolaro Station' herd. These cows have their are PTIC to their 2nd calf, due to calve mid-February for 6 weeks to the Rennylea Angus bulls (see attachments for EBV's). Cows are presenting in forward store condition having come through a cold Monaro winter. Weaners from the Bolaro Station herd are sought after each year by most major NSW feedlots. These cattle are noted doing Monaro bred cattle and would be a welcome addition to any Angus enterprise or an ideal mob to start on, given their young age and being proven breeders. Only reason these cows are being sold is due to them being out of sync with the rest of the Bolaro herd. EU, MSA, Greenhams Never Ever and Teys Grasslands accredited. Please note: Agent can arrange freight to all areas. Highly recommended cattle.
