Assessor Comments	A nice line of PTIC young cows EU accredited, Vendor bred, Boonaroo blood, Due to start calving mid-September for 8 weeks, to a Boonaroo bull, there are 11 two-and-a-half-year-old and 12 three-and-a-half-year-olds. Only being sold due to a bull break down and will calve outside of normal calving pattern. Cows that have plenty of breeding behind them and have all their lives in front of them, they are in store condition due to the tight season but are strong and healthy, they have picked up lice with the warmer weather as can be seen in the photos which were treated on the 13/8/24. They are quiet to handle and worked through the yards very well. Cows will be re-preg tested for buyer confidence before delivery
