Vendor Bred	No Vendor has owned stock for 6-12 months
Stock History	These heifers were purchased from western QLD as weaners in March & April.
Lifetime Traceable	Unknown
Bloodlines	These heifers look to be out of composite cows by Angus, Red Angus, Ultra Black & Brangus bulls as described when the heifers were purchased.
Grazing Conditions	These heifers and calves have been grazing on wintered buffel and mitchell grass downs. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Vendor Comments	These heifers are being sold to ensure there is enough feed for our breeding herd. They would normally be retained to heavier feeder weights.
Joining Details	Not Station Mated 100% Pregnancy Tested Not Detectable

Other Joining Details	These heifers have had no access to bulls and were preg tested non-detectable at the time of assessment.		
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.		
Temperament	Quality Grades		Store Condition

	Quiet: 50 head Slightly Stirry: 31 head		Quiet: 54 head Slightly Stirry: 26 head Stirry: 1 head
	Temperament not assessed in Paddock		
Notable Traits	These heifers worked through the yards with no issues during the assessing and preg testing. The heifers listed as slightly stiry in the yards are not aggressive they are however sensitive to pressure and become uneasy when pressure is applied. The heifers listed as slightly stiry in the crush were uneasy with the assessing process but not aggressive. The stiry heifers did become slightly aggressive due to the assessing and preg testing but did settle once released into the mob.		
	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses		
Assessor Comments	An opportunity to purchase a line of flat back heifers that are all on the do with plenty of compensatory gain to be had. These heifers present in fresh store condition with good frame & body to make them ideal heifers to carry through to heavier feeder weights or to put onto crop and finish off. These heifers are all preg tested non detectable at assessment with no access to bulls since being purchased in March/April 2024 with the heavier heifer's mouth milk tooth. These heifers are only being sold as the vendor would like to ensure they have the feed to maintain their breeding herd through to a late wet if need be. This is a good line of heifers well worth a look.
