These heifers worked well through the yards and flowed nicely through the crush with only a couple that were a bit quick but no trouble.

Assessor Comments	A nice line of well bred soft crossbred heifers standing on good bone with plenty of length, depth of barrel and weight for age. These would good replacement breeders and also suited as backgrounders for the domestic feeder market. The breeder herd are continually joined so as a result these heifers have had exposure to bulls prior to weaning but I would imagine they would be too young at that stage. These heifers are on the do and should go ahead for the purchaser.
