Assessor Comments	Buyers, This is a well bred line of weaned steers with great compensational weight gain. Steers ave 249kg with good frame and length of body. Steers show nice depth with plenty of softness and skin. These steers are very well bred being out of medium to large frame soft cross bred cows by top Quality Stud sires. Steers worked very well through yards and are very quiet to handle. These steers are ready to bounce away on some good feed and make great heavy feeders or bullocks.
