Assessor Comments	A great opportunity to buy a line of Angus heifers that would make perfect future breeders or great backgrounders. Heifers are vendor bred and purchased cattle that were locally sourced from New England including Walcha and Tenterfield areas. The vendor Bred heifers are from a cow base that has a foundation of Speriby North, Bald Blair, Wattle Top and Glenavon Angus bloodlines. Heifers are the lead draft and have been weighed into a tight weight range of 292 - 357 full at assessment and will be at perfect joining weights come October and November, Backgrounding wise heifers are more than suitable as they are in good condition and really starting to move forward in weight gains as the season is warming up and would suit all domestic feeding or finishing requirements. A line of heifers that offers plenty of market options at the right time of the year.
