Assessor Comments	Quality line of well-bred Angus heifers, presenting in store to forward condition, small tail of heifers (under 320kg) removed at assessment. Observed 8 head with cloudy eye & 2 head with old pinkeye scarring (dot) does not appear to have had any negative impact. Management tags will be removed prior to delivery. Heifers are out of cows purchased as PTIC or with CAF, good frame cows showing trueness to type, being evident in the heifers. These not station mated heifers have done well on crop & now on fresh natural herbage developing into ideal future breeders or to feed on and target trade or export markets. Please note delivery days. Steer portion same sale.
