Steers flowed well through the assessment process. Generally they are easy to handle with the odd steer becoming agitated in the race and crush but all calmed once through the draft and back in the mob. It is worth noting that there were a total of 500 steers in the yards at assessment.

Assessor Comments

On offer is a very even line of 69 Angus steers. These steers are cleaning up in the coat and weighed from 330 -390kg at assessment. Cattle are up to date with all their animal health treatments including a Bovilis MH+IBR in July and have been powering ahead in a fantastic season at Erdavale. Steers would suit backgrounding for the feedlot or could be grown out on grass to kill weights. Please note these steers are the heaviest draft in a large run of 375 head offered across 4 lots that have been put together with trucking in mind. A great opportunity on the doorstep of Spring.
