Assessor Comments Buyers a good line of well bred Angus Heifers that are an ideal article to breed or feed. These Heifers have done exceptionally well over the past 2 months due to recent rain averaging 1.6kg per day. These Heifers are very well bred being out of a reputable Angus Cow herd that has been based on Texas and Clunie Range gentetics for a number of years. Heifers show the breed quality showing good soft well balanced Heifers with depth of body. These Heifers would suit a future breeding operation or a back grounding operation to take through to heavier weights to suit Domestic markets. Please note there is 1 Heifers with an active pink eye which will be reassessed at delivery.
