	The vendor has spent an amazing amount of time handling these cattle and they are extremely quiet to handle. However, cattle can react differently after trucking and in a strange environment.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A very nice line of young Angus and Angus cross heifers. The majority are black-coated with 3 head being Charolais cross. Heifers would fit into most Angus Cross branded feeder programs. These cattle were an absolute pleasure to handle throughout the assessment and drafting process. Heifers would suit to finish for the Domestic markets. Over the last 73 days heifers have been gaining 1.3kg/day. Please note ringworms present on the heads of some. This is the complete drop with 6 Lighter heifers removed at assessment. Top quality calves.
