Assessor Comments	Offering 36 Crossbred PTIC heifers. These heifers were 414.8kg average weight live at assessment after being yarded the day prior. The heifers were preg tested by a Vet at assessment and are 4 to 5 Months in calf to a Santa bull. These heifers have gone forward since being purchased back in February from the Blackall area and have grown out well. This is a nice line of young well-handled heifers that will calve in a tight window for the purchaser through January and February.
