Assessor Comments	A good line of predominantly Santa, Droughtmaster type cows - PTIC to Angus Bulls from Carabar and Lilonga Angus Studs. Approx 70% Large to very large frame, 25% med frame and 5% small frame. Cows worked well through the yards and crush. Majority of cows were middle aged cows. Maybe an odd older cows in mob but still looked good in the udder and feet. Any shelly of bad cows were drafted out. These cows have produced very good calves previously and would be ideal to suit restockers to calve out and split. Part dispersal of vendors breeding herd due to a change in circumstances. Tail has been drafted out. Fit to load guidelines will be adhered to on trucking. Vendor has another 4 lots this sale.
