Temperament	Yards		Crush	Paddock
	Quiet: 16 head		Quiet: 16 head	Temperament not assessed in Paddock
	The Mopoke cattle are the quietest cattle I assess. Low stress handling is practiced on farm and these cows behave accordingly. They are routinely run through the yards and their temperament is a feature.			
Handled With	Bikes , Dogs , Horses			
Notable Traits	Traits			
	16 Head Lump behind ear from Selenium injection			
Assessor Comments	An outstanding line of PTIC 3 and 4-year-old cows due to calve over the month of October. Cows are Boorroomooka and Millah Murrah Blood and are medium to mostly large frame. These females are enjoying an exceptional season at 'Wyndham' and present in healthy forward condition. Cows are only being sold due to calving later than the vendors preferred program. The temperament of these cows is a feature, a lot of time and effort has gone into their handling. They are extremely quiet to work with. Cows are joined to registered JT Angus bulls selected with a focus on early growth, fertility and structure. A great opportunity to step into some top-class females about to enter the most productive years of their life.
