| Assessor Comments     | A nice line of Hazeldean/Landfall blood PTIC heifers. These heifers are in calf to AI sons of Millah Murrah Paratrooper to begin calving end of February . These heifers have gone through a tough Monaro winter and would respond quickly on good feed. These heifers were originally retained for breeding purposes, but with a change in direction to all spring drop calving are now for sale. |                         |                                     |
