	Cattle handled very well through the yards and in the paddock with low stress handling techniques. Yard weaned and moved regularly in a rotational grazing system.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Oct/ Nov '22 drop Rennylea Angus blood heifers which averaged 310kg (250-423kg) after a 5-hour curfew. These heifers are all frame and would absolutely explode on good feed with plenty of compensatory growth on offer. The Trewalla cattle are always highly sought after by backgrounders and finishers due to their high growth rates and quiet temperament. These heifers are Grassfed and Antibiotic free eligible being both Greenham Never Ever and Teys Grasslands Accredited. Please note; five heifers were PTIC but identified as joining very late in the joining period (conceived in January) and will be PG'd at delivery (identified with paint mid-back and long tails). Vendor also has 59 steers in this sale and would make up a B-Double. 10% tail removed from the line.
