Handled With	Extremely good cattle to handle, temperament is a factor in culling annually. Only 2 steers were slightly stirry in crush, once released very good to handle in yards. Top cattle to handle all round! Bikes , On foot , Vehicles			
Assessor Comments	84 *EU ACCREDITED* Angus steers bred from an outstanding Angus Herd. Cows are selected for fertility, A1 type, milk, feet and confirmation. Sires are selected on weight for age, carcass traits (Fat & EMA), above average for IMF, perfect structure and must have the ability to compliment the female Herd. Steers received 2 booster shots of 7in1 within 6 weeks of each treatment late last year and also please note have been treated with BOVILIS MH+IBR in late March 2023. The 'Wollumbi' cow herd are consistently 600-700kg mature females that are extremely productive, also reaching feeder weights in calves at 11-12 months of age. The Pollard Family have been breeding Angus cattle for 30+ years, a unique opportunity to source exceptionally bred steers from a highly regarded Herd.
