	Great to handle in the yards and moving through the assessment all cattle were individually weighed and showed no signs of agitation. The owner has yard weaned and had the steers running in a cell grazing system since weaning		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	EXCELLENT GROWTH & BONE ANGUS STEERS YARD WEANED . These angus steer weaners are the autumn drop brothers of the lead draft and represent the hard work the vendor has been putting in. Noted Locally performers in backgrounding or feedlot operations with a tone of breeding backing them up. These steers are grass fed only and antibiotic free for any producer wishing to target that market. With quality genetics Te Mania & Ardrossan Angus being used normally being sold at heavier weights.. The Steers are very balanced and will grow on with the weaning and training done. Please note Grass Fed No Antibiotics .
