	Great to handle in the yards and moving through the assessment all cattle were individually weighed and showed no signs of agitation. The owner has yard weaned and had the steers running in a cell grazing system since weaning then as one mob on new property. Steers were calm and moved through the race and crush with ease.

Assessor Comments	108 ANGUS STEERS EXCELLENT GROWTH & SHAPE YARD WEANED B DOUBLE LOAD TO BE SOLD WEIGHED FULL LESS 5% These top quality grass fed Angus steer weaners represents the hard work the vendors have been putting in. Noted Local performers in back grounding and or in feedlot operations with genetics backing them up Te Mania & Ardrossan Angus Bloodlines. These quality steers are grass fed only and antibiotic free for any producer wishing to target that market. With quality genetics Te Mania & Ardrossan Angus being used normally being sold at heavier weights straight into feed lot. The Steers are very balanced and will grow on. The weaning and training in yards and paddocks has been done. An odd steer has got old signs of ringworm but not detrimental. .
